Vision

**Touching lives through
Power Generation in Africa**

Mission

- Motivating people to act like owners working together.
- Exceeding customer expectations by always being first to market with the best products.
- Partnering with our customers to make sure they succeed.
- Demanding that everything we do leads to a cleaner, healthier, safer environment.
- Creating wealth for all stakeholders.

Values

Integrity

We strive to do what is right
and we do what we say we will do

Innovation

Apply the creative ingenuity necessary
to make us better, faster, first

Delivering Superior Results

Exceed expectations, consistently

Corporate Responsibility

Serve and improve the communities
in which we live

Diversity

Embrace the diverse perspectives
of all people and honour both with
dignity and respect

Global Involvement

Seek a world view and act
without boundaries

PowerGen Services Limited

PowerGen Services is a regional distribution business for some of the World's leading Diesel Engine manufactures that design, manufacture, distribute and service engines and related technologies, including fuel systems, controls, air handling, filtration, emission solutions and electrical power generation systems. Headquartered in Lusaka and with Satellite Offices in Solwezi, Kitwe, Ndola and Chingola. The company employs qualified engineers and technicians ready to service your machines either through once-off maintenance or on-site technician agreements tailored to your business requirements. Our After Market Support services is second to none, you can rely on Powergen services Limited to assist in your parts forecasting, planning, logistics and entire Supply chain through our strong territory networks and independent dealers across Africa and the World.

PowerGen is organised into four distinct complementary business units

Diesel Generator Service and Maintenance

We stand by our products and provide our customers with generator parts, generator support and diesel generator services and maintenance.

Our skilled technical team will conduct diesel generator maintenance and diesel generator service work on your diesel generator based on the hours the generator has run or based on the time interval required.

We have created a detailed sheet of diesel generator service and diesel generator service maintenance checks that are completed at generator maintenance and diesel generator service intervals incorporating the key diesel generator engine service as well as generator service electrical componentry inspections required throughout the life cycle of your set. We can tailor make the diesel generator service intervals to meet your individual requirements.

The majority of our maintenance staff are red seal qualified diesel mechanics with electrical experience to handle any difficult generator service and generator maintenance related problems in the field. We consistently get top notch generator service reviews for our excellent generator maintenance related generator support activities.

Component Business Unit

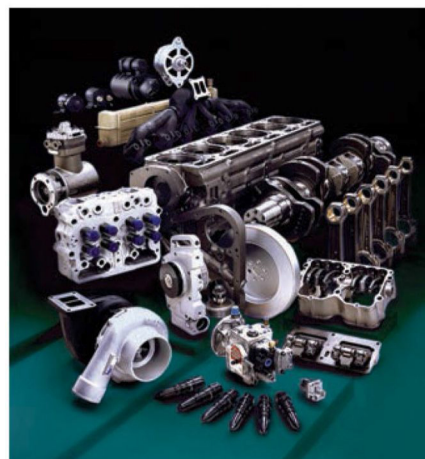

The Components Business Segment consists of four businesses: Filtration, Turbo Technologies, Emission Solutions and Fuel Systems.

Filtration Unit: Supplies and distributes heavy-duty air, fuel, hydraulic and Lube filtration, chemicals and exhaust system technology products for diesel and gas-powered equipment.

Turbo Technologies Supplies and distributes turbochargers and related products, on a global scale, for diesel engines above 3 liters.

Emission Solutions: and supplies catalytic exhaust systems and related products to the medium-and heavy-duty commercial diesel engine markets. The exhaust systems include packaging of catalytic exhaust systems, engineered aftertreatment components and system integration services for engine manufacturers.

Fuel Systems: Supplies and distributes both new fuel systems and remanufactures electronic control modules in the United States. In Mexico, it remanufactures fuel systems and others. This business services engines ranging from 9 to 78 liters.

Distribution Business Unit

PowerGen Distribution Business drives a comprehensive global distribution strategy and channel management. Capitalizing on synergies in parts and services, this business helps PowerGen by providing outstanding support to our customers, while growing a less cyclical and less capital intensive business

The business consists of 17 Company-owned distributors and 10 joint ventures, covering 90 countries and territories through 233 locations. Through this network, trained personnel sell and distribute PowerGen-branded products, related services and broader solutions such as maintenance contracts, engineering services and customized integrated products.
